The **Program Planning Guide** can be used to create a program for your school camp. The guide contains a list of suggested venues and landmarks within Melbourne's CBD. Activities suitable for school students at these locations, including costs, are provided within this guide. Please note prices are current at time of printing and subject to change.

Please note **City CYC does not make any bookings on behalf of schools**, however we are more than happy to assist with creating a suitable program for your school group.

We recommend that you book your activities as soon as you have locked in a camp date, as many locations book out quickly. Suggested programs can be found at the back of this guide.

Please ensure that you contact each venue you would like to visit for the most up to date pricing when creating your camp budget.

We recommend that you visit the Public Transport Journey Planner website to assist you in determining the quickest mode of transport to get to your destination. www.ptv.vic.gov.au
